New Zealand Journal of

Botany

Volume 29 / 1991

Wellington

Editor: Dr Carol J. West

Editorial Advisory Board

Professor P. Bannister	Department of Botany, University of Otago
Dr R. E. Beever	DSIR Plant Protection
Dr P. J. Brownsey	National Museum of New Zealand
Dr M. S. McGlone (Chairman)	DSIR Land Resources
Dr I. J. Payton	Forest Research Institute, Ministry of Forestry
Professor R. G. Thomas	Department of Botany, Massey University

New Zealand Journal of Botany (ISSN 0028-825X)
Vol. 1, No. 1 (December 1962)

Volume 28, Number 4, published 20 December 1990
Volume 29, Number 1, published 21 March 1991
Volume 29, Number 2, published 6 June 1991
Volume 29, Number 3 published 18 September1991

Scientific and Industrial Research Publishing of New Zealand (SIR Publishing) is a publishing unit incorporated within The Royal Society of New Zealand. Formerly the DSIR Publishing unit of the New Zealand Department of Scientific and Industrial Research, the unit was transferred to the Society on 1 July 1991.

The Royal Society of New Zealand has objects and functions consistent with its role as New Zealand's national academy of sciences, a federation of scientific and technological societies, and an association for the advancement of science and technology. The Society is charged with the statutory responsibility to promote scientific endeavour and achievement and to inform the Crown on science and technology. Established in 1867 as *The New Zealand Institute*, the Society is a Crown Agency incorporated under *The Royal Society of New Zealand Act, 1965*. It comprises Fellows, Branches, affiliated Scientific Societies, and members.

Permission to photocopy for internal or personal use or the internal or personal use of specific clients is granted by The Royal Society of New Zealand for libraries and other users registered with the *Copyright Clearance Centre* (CCC), provided that the stated fee per copy is paid directly to the CCC, 21 Congress Street, Salem, MA 01970, USA. Special requests should be addressed to SIR Publishing.

The code on the first page of an article indicates the above consent and includes the fee per copy to be paid to the CCC.

This journal is listed in: Biological Abstracts; Bulletin Signaletique; Chemical Abstracts; Current Contents; Ecological Abstracts; Forestry Abstracts; GeoArchive; Index to Book Reviews in the Sciences; IRL Life Sciences Collection; Microbiology Abstracts–Section C; Science Citation Index; SIRIS/STIX.

CONTENTS

Volume 29 1991

Number 1

Bryology and lichenology

Investigations on carotenoids in lichens. XXVIII. Carotenoids of some New Zealand lichens — **B. Czeczuga and F. J. Taylor** — 1

Notes on the Neckeraceae (Musci). 8. *Pendulothecium*, a new genus from New Zealand and Norfolk Island — **J. Enroth and S. He** — 7

Ecology

Ecology of a coastal lagoon to dune forest sequence, south Westland, New Zealand — **A. W. Robertson, A. F. Mark, and J. B. Wilson** — 17

Genetics and reproductive biology

Reproductive phenology, pollination biology, and gynoecium development in *Discaria americana* (Rhamnaceae) — **D. Medan** — 3

Mycology and plant pathology

Studies in the Agaricales of New Zealand: some *Mycena* species in sections Longisetae, Polyadelpha, Rubromarginatae, Galactopoda, Lactipedes, and Calodontes — **B. P. Segedin** — 43

Structure and development

Architecture of a clonal population of *Muehlenbeckia astonii* Petrie (Polygonaceae), a divaricating shrub endemic to New Zealand — **P. H. Lovell, D. Uka, and J. B. White** — 63

Seed morphology and anatomy of the New Zealand genera *Cheesemania, Ischnocarpus, Iti, Notothlaspi*, and *Pachycladon* (Brassicaceae) — **P. J. Garnock-Jones** — 71

Short communications

Pollination and seed dispersal in *Freycinetia baueriana*, a dioecious liane that has lost its bat pollinator — **J. M. Lord** — 83

Gender dimorphism in *Cheesemania wallii* (Brassicaceae) — **P. J. Garnock-Jones** — 87

Effects of introduced Australian brushtail possums (*Trichosurus vulpecula*) on the fruiting of the endemic New Zealand nikau palm (*Rhopalostylis sapida*) — **P. E. Cowan** — 91

Letter to the Editor

"Poisonous plants in New Zealand" by Jose Steuart ; Revised edition 1989. GP Books (Wellington) — **H. E. Connor** — 95

Book review

The Herbarium Handbook — **M. Dickison** — 97

H. H. Bloomer Award to Hugh Wilson — 99

Erratum — 100

Number 2

Biosystematics and phytogeography

Checklist of pooid grasses naturalised in New Zealand. Tribes Nardeae, Stipeae, Hainardieae, Meliceae, and Aveneae — E. Edgar, M.-A. O'Brien, and H. E. Connor — 101

Checklist of oryzoid, arundinoid, and chloridoid grasses naturalised in New Zealand — E. Edgar, H. E. Connor, and J. E. Shand — 117

Acaena rorida and *Acaena tesca* (Rosaceae) – two new species from New Zealand — B. H. Macmillan — 131

Agrostis L. in New Zealand — E. Edgar and M. B. Forde — 139

Ecology

Growth of *Pinus radiata* in relation to foliar element concentrations on ultramafic soil, New Zealand — W. G. Lee, R. P. Littlejohn, and P. G. Prema — 163

Growth, biomass, and productivity of a bracken (*Pteridium esculentum*) infested pasture in Marlborough Sounds, New Zealand — J. R. Bray — 169

Changes in the native plant cover of urban Auckland, New Zealand — A. E. Esler — 177

Instrumental evaluation of some New Zealand fruit colours using CIELAB values — I. L. Weatherall and W. G. Lee — 197

Physiology and biochemistry

Seasonal frost hardiness in *Leptospermum scoparium* seedlings from diverse sites throughout New Zealand — D. H. Greer, L. A. Muir, and W. Harris — 207

Short communication

Responses of seeds of three species of *Pseudopanax* to low temperature stratification, removal of fruit flesh, and application of gibberellic acid — P. Bannister and J. Bridgman — 213

Erratum — 217

Number 3

Biosystematics and phytogeography

Chionochloa Zotov (Gramineae) in New Zealand — **H. E. Connor** — 219

Bryology and lichenology

A new species and new records of *Verrucaria* Schrader (lichenised Ascomycotina, Verrucariaceae) from New Zealand — **P. M. McCarthy** — 283

Two new species of *Sphaerophorus* (Caliciales) from New Zealand — **M. Wedin and L. Tibell** — 287

Ecology

Vegetation/environment relationshps in lowland and montane vegetation of the Kawarau Gorge, Central Otago, New Zealand — **T. R. Partridge, R. B. Allen, P. N. Johnson, and W. G. Lee** — 295

Germination requirements of New Zealand native plants: a review — **D. W. Fountain and H. A. Outred** — 311

Subalpine and alpine vegetation of granite ranges in western Nelson, New Zealand — **P. A. Williams** — 317

Mycology and plant pathology

Type studies of the species of *Pellicularia* and *Peniophora* described by G. H. Cunningham — **J. A. Stalpers and P. K. Buchanan** — 331

Short communications

Chnoospora minima (Phaeophyta) in Port Underwood, Marlborough – a curious new algal record for New Zealand — **W. A. Nelson and C. A. J. Duffy** — 341

Some woody vegetation samples may be stored for 24 hours without affecting measured water potential — **K. P. C. Innes and D. Kelly** — 345

Decline of tree lupin (*Lupinus aboreus*) on Kaitorete Spit, Canterbury, New Zealand, 1984–1990 — **B. P. J. Molloy, T. R. Partridge, and W. P. Thomas** — 349

Number 4

Ecology

A preliminary assessment of the establishment and persistence of *Berberis darwinii* Hook., a naturalised shrub in secondary vegetation near Dunedin, New Zealand — R. B. Allen — 353

Silver beech (*Nothofagus menziesii* (Hook. f.) Oerst.) seedfall patterns in the Takitimu Range, South Island, New Zealand — L. E. Burrows and Robert B. Allen — 361

Effects of clearfell logging and clearfell logging and burning of a *Nothofagus* forest on soil nutrient dynamics in South Island, New Zealand – changes in forest floor organic matter and nutrient status — K. M. Goh and M. J. Phillips — 367

Litterfall under hinau, *Elaeocarpus dentatus*, in lowland podocarp/mixed hardwood forest, and the impact of brushtail possums, *Trichosurus vulpecula* — P. E. Cowan and D. C. Waddington — 385

Mycology and plant pathology

Rhytismataceae in New Zealand. 4. *Pureke zelandicum* gen. and sp. nov. plus additional species in *Hypoderma*, *Lophodermium*, and *Propolis* — P. R. Johnston — 395

Rhytismataceae in New Zealand. 5. Wood- and bark-inhabiting species in the genera *Colpoma* and *Propolomyces* — P. R. Johnston — 405

Phycology

The New Zealand species of *Polysiphonia* Greville (Rhodophyta) — N. M. Adams — 411

Structure and development

Wood anatomy of the dicotyledons indigenous to New Zealand. 21. Loranthaceae — R. N. Patel — 429

Seed morphology in relation to taxonomy in New Zealand species of *Weinmannia*, *Ackama*, and the related South American *Caldcluvia paniculata* (Cunoniaceae) — C. J. Webb and M. J. A. Simpson — 451

Short communications

Genetic variation in the frost hardiness of *Podocarpus totara* — B. J. Hawkins, G. B. Sweet, D. H. Greer, and D. O. Bergin — 455

Chionochloa rigida tussocks thirteen years after spring and autumn fire, Flagstaff, New Zealand — H. Gitay, J. B. Wilson, W. G. Lee, R. B. Allen — 459

Seedling and sapling distribution patterns in a coastal podocarp forest, Hokitika Ecological District, New Zealand — D. A. Norton — 463

Book reviews

Germination physiology and desert ecology — T. R. Partridge — 467

Flora of the Outer Hebrides — E. O. Campbell — 468

Flowering plants of New Zealand — J. Abraham — 469

Index to Volume 29

Author index — 471

Subject index — 473

Species index — 475
